

PLAYGROUND COMMUNICATION BOARD

CHAMP's vision is to help special needs individuals of all ages reach their full potential. To that end, one of our projects is to help special needs individuals, that are non-verbal, be able to communicate with their peers that can talk whether the peers are special needs or not.

Most non-verbal children use a program, on an IPAD, displaying symbols to help them communicate their wants and needs. To avoid the need to bring an I-PAD to the playground, CHAMP is piloting a program to install a permanent sign at ONE of Jupiter's 22 playgrounds to display the same icons used on the IPAD.

Help us raise the funds, \$2000, to buy and install the first sign for one of Jupiter's 22 playgrounds.

Click [here](#) to reach our website to donate what you can to raise the necessary funds. The website indicates how you can donate by Zelle or Check. It also provides the latest status to see how we are progressing against our \$2000 goal.
